Mark Daniel M. Medina

CIVIL ENGINEERING STUDENT

markdanielmedina52@gmail.com | 09917571296

PROFESSIONAL SUMMARY

Motivated third-year Civil Engineering student at Garcia College of Technology with foundational skills in AutoCAD, Revit, and SketchUp. Interested in building design, technical drafting, and building information modeling (BIM). Eager to strengthen technical knowledge and gain practical experience through future engineering projects.

EDUCATION

Garcia College of Technology

Bachelor of Science in Civil Engineering | Third Year

Expected Graduation: 2028

TECHNICAL SKILLS

AutoCAD	Revit	SketchUp

- AutoCAD — technical drafting and drawing preparation (foundational)
- Revit — building modeling and BIM (foundational)
- SketchUp — 3D building modeling and visualization (foundational)

ACADEMIC PROJECTS

Two-Storey Residential Building Model

- Academic building-modeling project involving residential layout and 3D modeling.

Residential Plumbing Layout and Water Supply Design

- Academic project exploring water-supply piping, plumbing fixtures, and coordination within a residential building model.

CAREER OBJECTIVE

To build a career in civil engineering by continuously improving technical drafting, building modeling, and design skills while pursuing opportunities to gain practical experience in engineering projects.
